

¹**Project Name:** Quick Start Guide to Discord: Creating a server and adding friends **Audience:** Teen beginner **Length:** 120-150 seconds **Screen size:** 1080p

Direction/SFX	Frame (Screen/Picture)	Audio
<p>1. Interaction description: Shot/Screen Shot: full desktop with Google home page; Discord software SFX: none</p> <p>Search “discord software” on Google and click on the “discord.com/download” link.</p> <p>Movements: Type “discord software” in Google and select “discord.com/download” link</p> <p>Seconds: 10</p>		<p>Voice-Over:</p> <p><i>Script: Welcome to Discord, the all-in-one platform to message and chat with your friends! By the end of this video, you’ll make your own server for your friends to chat, hangout, and game together!</i></p> <p><i>First, if you don’t have Discord yet, you can download Discord for free by searching “discord” on your internet browser.</i></p>
<p>2. Interaction description: Shot/Screen Shot: Discord software SFX: highlight cursor throughout</p> <p>Show Discord opened on computer.</p> <p>Movements: Click on “plus” button to create server. Click on the necessary options to create the server. Click on “create” button to create the server.</p> <p>Seconds: 25–35</p>		<p>Voice-Over:</p> <p><i>Once you have created an account, go ahead and navigate to the “plus symbol” on the left navigation panel and click on it. Next, click “create my own”; you can explore the other template options later. For the next prompt, choose what fits your situation; I’m creating a server for me and my friends. Finally, you can name and add a picture to your server; once you’re done, go ahead and click create to finish making your server.</i></p> <p><i>You can change the name of your server by right clicking your server and selecting server settings.</i></p>

¹ Template adapted from Larsen, G. (July 3, 2012) The Storyboard: An Outline for Visual Technical Communications on TECHwhirl at <https://techwhirl.com/storyboard-outline-visual-technical-communications/>

<p>3. Interaction description: Shot/Screen Shot: Discord software SFX: highlight cursor throughout</p> <p>Select “text channel” first to show the text channel; type a random message to show its features. Select “voice channel” to join the channel to show me joining the channel that I am talking.</p> <p>SFX: highlight cursor throughout</p> <p>Select Discord icon to change screen; select “friends”. Show here that you can add friend.</p> <p>Movement: clicking on the voice and text channel, discord icon, and friends.</p> <p>Seconds: 45–50</p>		<p>Voice-Over:</p> <p><i>Script: Welcome to your server, you have two types of channels: text and voice; one for messaging and for voice. Click on either to navigate to their channel to talk and chat with your friends.</i></p> <p><i>But there is nobody here...let's change that. Navigate to the Discord icon at the top left and click on it. Next, click on “friends”. Here, you can add your friends by their username.</i></p> <p><i>Once they have accepted your request, go back to your server and click on “Invite your friends”. Then, click the “invite” button next to your friend's username. Once they've joined, their name will show on the right side of Discord.</i></p>
